# What is this all about?

## Who We Are

We support kids, businesses and local organizations.

We build community through music.

We are a non-profit organization (501c3) designed to strengthen and promote city music scenes. We provide instruments, lessons, radio spots, concert experience, and an overall good time to anybody looking to get involved in music.

---

## What We Do

Music changes lives, so we support the music cycle:

- Get kids into music with lessons and instruments
- Partner with and promote live music venues
- Act as a support system for your specific music scene
- Partner with other non-profits to build community through music

Examples: Walk the Beat Summer Concert Series, Blues at the Bohm, Bohm Country, Word Up! and other events that act as a build-up to our main Walk the Beat street festival featuring concerts, giveaways and fundraisers every August.

---

## The Big Event

The biggest yearly Walk the Beat events are our annual Street Music Festivals.

- Live music everywhere you look in your downtown.
- Crowds literally "walk the beat" from show to show
- Music and prizes at every stop
- The music, crowds, and prizes create a vibrant festival atmosphere.

It's the perfect way to see and support emerging musicians and local business in a big end-of-the-summer party! *There are two annual full-scale music festivals each August, in Grand Haven and in Albion. Stay tuned - there will be more next year.*

---

## The Goal

Music Everywhere for Everyone!
